

Request for Proposals (RFP)¹

“Addressing the Economic Drivers of Irregular Migration (AEDIM)”

Implemented by the National Council for Women (NCW)

In Partnership with the European Union (EU)

Request for a proposal	Request for Proposal (RFP) for (2) Handicrafts Vocational Trainings Consultant (printing, papier-mâché, artistic work & embroidery)
General Service Type	Consultancy and Technical Advice Services
Proposal Validity Period	15 calendar days
Duration of assignment	From the date of Contract till May 2024 (subject to changes and extension depending on actual dates)

BACKGROUND

Addressing the Drivers of Irregular Migration (IM) is a priority for the Government of Egypt (GoE), as echoed by strong institutional and legislative frameworks that are in place to combat the phenomenon of IM, and developmental efforts to achieve high economic growth and generate work opportunities. Since 2016, such efforts and concrete steps taken by Egypt to combat IM, have already contributed to creating awareness, leading to no cases of IM boats recorded at the Egyptian shores.

The Overall Goal of the project entitled "**Addressing the Economic Drivers of Irregular Migration (AEDIM)**", which is led by the National Council for Women (NCW) in partnership with the European Union (EU), is to provide an alternative to IM through enterprise development and

¹ This request is a ‘call for an expression of interest’, and no legal commitment from NCW's side arises from it, until a contract is signed with the selected entity.

work opportunities for women and youth in the regions and villages being exporting or sending governorates in Egypt.

The Regions/Governorates addressed are Beheira, Gharbiya in Delta, and Luxor, Minya, in Upper Egypt. The timeframe for the project is 48 months including an inception phase. Incubation and Production Units and Business Development Service (BDS) Units will be established in each governorate for sustainability. To target employment, the project will build linkages with the private sector and businesses to match-make private sector's needs with existing capacities, and support in enhancing the skills to match the required needs. Moreover, the project targets start-ups and owners of existing Micro Small & Medium Enterprises (MSMEs) through BDS units established at NCW branches along with incubation facilities. In addition, the project intends to build the capacities of business associations, trainers in the selected areas, youth community leaders and women rural leaders as a priority action to extend the project's services to other communities and build a network of related actors for inclusive development.

The project² will develop a seal under the "Taa Marbouta" initiative. The seal will certify beneficiaries who abide by a set of quality standards and specific criteria to gain incentives and privileges. Moreover, exhibition halls and point of sale will be established at NCW premises in Cairo, and the selected governorates to display products certified by "Taa Marbouta" Seal.

To join efforts, closing the business gap between demand and supply and fulfilling the missing linkages, the project will establish a Women Entrepreneurs Network. The objective of the network is to connect entrepreneurs and start-ups among each other as well as with business actors and public institutions. The network will facilitate linkages, referrals and business matchmaking, as well as providing cross visits for experience sharing and knowledge transfer.

Awareness campaigns will be implemented and will utilize NCW existing successful outreach campaigns; "Taa Marbouta" (feminine conjugation), and "Tarq El Abwab" (knocking on doors), which will be adapted for the purpose of the project together with other outreach developed tools.

² The word Project refers to the 'name of project' implemented by NCW in partnership with the EU.

Within the project's scope of work, the main objectives of the requested service/assignment is to support NCW in implementing comprehensive vocational programmes in the field of printing, papier-mâché, artistic work & embroidery and to provide technical support to assist in developing tailored vocational trainings' workplans across the four targeted governorates to promote AEDIM work and its visibility, as well as to identify the needed trainings and resources to enhance women's capacity to produce authentic and eco-friendly products. The consultant will ensure that women will develop their capacity through tailored basic and product development workshops in each of the targeted governorates.

PROJECT'S GENERAL DETAILS³

Project's title:	Addressing the Economic Drivers of Irregular Migration (AEDIM)
Location(s):	The Governorates addressed are (Beheira, Gharbiya) in Delta, and (Luxor, Minya) in Upper Egypt
Total duration of the Project (months):	48 months (started since June 2021)
Objectives of the Project	The Overall Goal of the project is to provide an alternative to IM through enterprise development and work opportunities for women and youth in the regions and villages being exporting or sending governorates, fostering social and economic environment.
Primary target group(s) of the project	- The project's primary target group is female heads of households, who are seeking income-generating opportunities whether home-based or part of the job market. Female heads of households are considered

³ The word Project refers to the 'name of project' implemented by NCW in partnership with the EU.

	<p>priority targets of the project to protect their children from economic conditions that might encourage them to IM, youth above 18 years are targets as well. Therefore, the project will give them the chance to enhance their skills and obtain supportive funds to be self-employed or start/grow their projects. This includes women (70%) and young men (30%).</p>
<p>Final beneficiaries of the project</p>	<p><u>The final beneficiaries are:</u></p> <ul style="list-style-type: none"> - The selected governorates are prone to IM including the local population of selected organic clusters, start-ups, existing businesses, and MSMEs who will benefit from increased support to BDS in the long run. - Service providers working in areas of business development and MSMEs in selected governorates where the project will be implemented, and whose capacities would be enhanced due to the proposed project. - Governmental and non-governmental organizations related to MSMEs development will work, with referrals to each organization's specific area of intervention and scope.
