EXECUTIVE SUMMARY

The 2021 Women on Boards (WoB) indicator reached 16.7%, achieving a significant improvement in comparison to 13% in 2020, marking a growth rate of 28.5% in one year. Sustaining the 3% annual increase achieved in the past 2 years will enable the analyzed categories to reach the 2030 strategy goal of 30% women on boards by 2026.

The representation of women on boards varied across the categories included in the report. Non-banking financial sector (NBFS) companies achieved 18.6% representation of women on boards in 2021 compared to 14.7% in 2020, achieving a growth rate of 26.5%. EGX listed companies' indicator increased from 11.6% in 2020 to 15.2% in 2021, marking a growth rate of 31%. The banking sector has also realized a slight improvement, increasing from 13.7% in 2020 to 14.2% in 2021, witnessing a growth rate of 3.6%. On the contrary, public enterprise companies, currently undergoing structural reforms, witnessed a slight decline in the representation of women on boards from 8.7% in 2020 to 8.1% in 2021, realizing a negative growth rate of -6.9%.

On the other hand, companies with zero women on board decreased dramatically across all categories except for the banking sector. The percentage of EGX listed companies decreased from 42.7% in 2020 to 14.9% in 2021, NBFS companies' percentage decreased from 47.5% in 2020 to 19.7% in 2021 and public enterprise decreased from 71.9% in 2020 to 62.8% in 2021. However, banks with zero women on board slightly increased from 20.6% to 23.5% between 2020 and 2021, an increase of only one bank.

INTRODUCTION

The 2021 monitoring report covers data and information based on November 2021 data for the following categories: EGX listed companies, the banking sector, the public enterprise sector and the financial regulatory authority (non-banking financial sector).

The report is divided into six sections, organized as follows:

Section one: demonstrates the main indicators of women on boards (WoB) representation for all categories, presenting growth patterns and trends as well as the current gap of WoB representation and the way forward to reach the 2030 strategy target of 30%.

Sections two through five:

Covers the detailed analysis of WoB representation of EGX listed companies^{*2}, the banking sector, public enterprise companies and non-banking financial sector companies. The analysis includes the main developments that took place during years 2018 to 2021, shedding light on companies and banks that have reached 30% or more women on board in 2021.

The second part of each section presents the analysis of representation of women among executive leadership positions (chairpersons, CEOs/MDs and CFOs positions and NEDs) of each of the previously mentioned categories.

Section Six: presents in details information related to methodology applied in the report.

Finally, the annexes at the end of the report, provide background information about Egypt WoB observatory, EGX and EGX indices, the banking sector, ministry of public enterprise, the Financial Regulatory Authority, the national strategy for the empowerment of Egyptian women 2030 and the main initiatives to reach 2030 goals.

Additionally, detailed statistical tables of companies categorized by number of women on their boards are presented at the end.

**2 - EGX listed companies' data were deducted from the calculation of the FRA (non-banking financial sector) companies' female representation on boards to avoid double counting for the purpose of calculating WoB indicator.*

SECTION 1: 2021 WOMEN ON BOARDS AGGREGATE INDICATORS

INTRODUCTION

Section one of the 2021 Women on Board monitoring report summarizes the overall and aggregate WoB representation indicators in Egypt. The WoB indicators will be representing Egyptian Exchange listed companies, the banking sector, public enterprise companies and non-banking financial sector (NBFS) companies.

A summary of the development of the WoB representation of each category will be also demonstrated in both absolute and relative manner.

Part two of this section presents the overall Egypt WoB representation indicator for 2021 and estimates of the current gap of women who need to be placed on boards of companies and banks to reach the 30% WoB representation by 2030.

WOMEN ON BOARDS BY CATEGORY 2021

The table below summarizes the results of the 2021 women on boards (WoB) indicator, where the highest percentage of 18.6% was in the non-banking financial sector (NBFS), followed by the Egyptian Exchange at 15.2% and the banking sector at 14.2%. The lowest WoB representation was in the public enterprise sector at 8.1%.

PROGRESS IN WOMEN ON BOARDS BY CATEGORY (2018-2021)

The progress achieved in the representation of women on boards in each category from 2018 to 2021, illustrated in the below figure, demonstrates an overall upward trend for EGX and the NBFS, while the public enterprise sector followed a relatively stable pattern and the banking sector's indicator fluctuated.

WoB REPRESENTATION BY CATEGORY (2018-2021)

2021 WOMEN ON BOARDS INDICATOR

The overall women on boards indicator witnessed a significant improvement in 2021, achieving 16.7%.

The women on boards indicator progressed annually, from 10% in 2019 to 13% in 2020 and finally reached 16.7% in 2021, achieving a cumulative positive growth rate of around 60%.

The 2021 WoB representation of 16.7% is halfway towards achieving the 30% women on board's goal.

The WoB indicator increased annually by 3% during the first years under study and 3.7% in 2021, maintaining this annual increase will enable achieving the 30% goal by the year 2026.

WoB INDICATOR (2019-2021)

The breakdown of the WoB indicator by each category is illustrated in the below table. NBFS companies are the main contributor to the indicator, achieving a WoB representation of 18.6%, followed by 15.2% of EGX listed companies.

WOMEN ON BOARDS INDICATOR BY CATEGORY 2021

	Number of Women on Boards	Total Number of Board Members	Percentage of Women Representation
The Egyptian Exchange ^{*2}	267	1752	15.2%
The Banking Sector	41	288	14.2%
The Public Enterprise Sector ^{*3}	23	368	6.3%
The NBFS ^{*4}	712	3825	18.6%
Total	1043	6233	16.7%

^{*2} -12 banks were deducted from the EGX list of companies, to avoid double counting with the banking sector.

^{*3} -16 public enterprise companies were deducted to avoid double counting with the same companies listed in the Egyptian exchange companies.

^{*4} -All EGX listed companies, and 16 companies having 0, 1 and 2 board members were excluded from the total number of NBFS companies for 2021.

WOMEN ON BOARDS INDICATOR MARKED 16.7% IN 2021.

DISTRIBUTION OF WOMEN ON BOARDS BY CATEGORY 2021

The distribution of women on boards reported in 2021 indicate the highest share in NBFS companies, accounting for 68% of women board members and totaling 712.

EGX listed companies had 267 women on boards, accounting for 26% of the total number of women on boards. The banking sector had 41 women on boards, accounting for 4%, followed by the public enterprise sector with 23 women accounting for 2% of the total number of women on boards in 2021.

GROWTH PATTERN IN NUMBER OF WOMEN ON BOARDS (2019-2021)

The total number of women on boards has increased from 578 in 2019, to 714 in 2020 to 1043 in 2021. The total number of women on boards increased by 46% from 2020 to 2021.

NUMBER OF WOMEN ON BOARDS (2019 - 2021)

Annually, an estimate of 92 women are needed to be placed on boards across the four categories included in the analysis, totaling 830 by 2030, in order to achieve the 30% WoB representation by 2030. 48 women need to place on NBFS companies' boards annually, 29 women on EGX listed companies boards, 10 needed to be placed on boards of public enterprise sector companies and only 5 on boards of banks.

NBFS companies succeeded to place 258 women in 2021, almost five folds the annual obligation, while EGX listed companies placed 69 in 2021 almost double the annual requirement to achieve the 30% WoB representation goal.

Both the banking sector and the public enterprise sector placed on their boards less than the annual estimated requirement.

The annual gap estimated in 2020 was 95, therefore the annual gap calculated in 2021 has realized an improvement narrowing down to only 92, a decrease of 3 women.

THE ANNUAL GAP OF WOMEN ON BOARDS TO REACH 2030 TARGET (2019-2021)

The table below presents the progress of the estimated annual gap to reach the 2030 target, which decreased from 113 in 2019 to 95 in 2020 to 92 in 2021.

ANNUAL GAP BY CATEGORY TO REACH 30% WoB BY 2030

	Total Gap To Reach 2030 Goal	Annual Gap To Reach 2030 Goal	Newly Introduced Women on Boards

On the other hand, the distribution of companies and banks by the number of women on board during the period 2019 to 2021 as illustrated below, demonstrating the significant changes that took place by category and number of women on boards.

DISTRIBUTION OF COMPANIES AND BANKS BY NUMBER OF WOMEN ON BOARDS (2019 -2021)

The percentage of companies with zero women on board has substantially decreased across most of the categories in the past three years. The percentage of EGX listed companies went from 53.3% in 2019 to as low as 14.9% in 2021, decreasing by more than half in 2 years. The NBFS has also realized a decline in the percentage of companies with zero women on board, decreasing from 58.8% in 2019 to 19.7%. However, public enterprise companies with zero women on board kept a stable pace between 2019 and 2020 at a level of around 72%, which then declined significantly to reach 62.8 % in 2021, by a negative growth rate of -12.8% in one year.

On the contrary, the percentage of banks with zero women on board fluctuated between a maximum of 26.5% in 2019 and a minimum of 20.6% in 2020, increasing in 2021 to reach 23.5% of total banks, increasing by only one bank.

The second category that has witnessed the most changes, was the percentage of companies with one woman on board. EGX listed companies witnessed the highest increases between 2019 and 2021, increasing from 24.7% in 2019 to 60.2% in 2021, more than doubling in 2 years. Also, the percentage of NBFS companies with one woman on board has witnessed improvements, increasing from 28.7% in 2019 to 55.9% in 2021.

SECTION 2: THE EGYPTIAN EXCHANGE ANALYSIS 2020

INTRODUCTION

This section addresses in details the progress achieved in WoB representation of 241 EGX listed companies in 2021, including the analysis of EGX indices, namely, EGX30, EGX70, EGX100, S&PEGX ESG and EGXSMEs (previously known as NILEX).

In addition, the analysis includes the progress in the number of women on boards of EGX listed companies, the distribution by the number of women on boards and the sectoral analysis (using EGX sector classification) will be also demonstrated.

The second part of this section exhibits additional results related to representation of women among executive leadership positions, i.e., chairpersons, NEDs, CEOs/ MDs and CFOs.

CONCLUSION

The Ministry of public enterprise is undergoing structural reforms and mergers of affiliated public enterprise companies. Accordingly, the number of public enterprise companies declined from 120 in 2019 to 114 in 2020 and 94 in 2021.

The overall performance of the public enterprise sector in terms of WoB representation witnessed a slight downturn, declining from 8.7% in 2020 to 8.1% in 2021. Total number of women declined by two women between 2020 and 2021. Four of the holding companies have zero women board.

The share of companies with zero women on board significantly decreased from 82 companies in 2020 to 59 in 2021. The share of these companies has also witnessed a decline from 71.9% in 2020 to 62.8%.

On the other hand, the share of companies with one woman on board witnessed an improvement on both real and relative terms, increasing from 27 in 2020 to 34 in 2021 and from 23.7% in 2020 to 36.2% in 2021 of total companies.

Both companies with two and three or more women on board witnessed a decline. Companies with 2 women on boards decreased in number from 4 in 2020 to 1 in 2021 and companies with 3 or more women on board went from 1 company in 2020 to zero in 2021.

The list of public enterprise companies with 30% or more WoB representation decreased from 19 companies in 2020 to only 5 companies in 2021, accounting for 5.3% of total 2021 companies and marking -73.6% negative growth rate.

On the sectoral level, the highest WoB representation was marked in the tourism and hotels sector, followed by the pharmaceuticals and cotton and textile companies, having WoB representations of 19.4%, 14.6% and 9.4% respectively. On the other hand, the lowest WoB representation were found in the construction and development companies, maritime and land transport and chemical industries having 2.7%, 4.5% and 6.6% respectively.

SECTION 5: FINANCIAL REGULATORY AUTHORITY (FRA) NON-BANKING FINANCIAL SECTOR (NBFS) 2021 ANALYSIS

INTRODUCTION

Section 5 of the report presents the development of WoB representation of the non-banking financial sector (NBFS), within the jurisdictional scope of the financial regulatory authority (FRA). EGX listed companies' data is not included in the NBFS analysis to avoid duplication in calculations with listed companies' WoB representation results.

The NBFS section also presents the companies by WoB representation, number of women on boards and companies with 30% or more women on board, in addition to area of activity analysis.

Furthermore, additional data related to representation of women non-executive directors (NEDs) and executive leadership positions, chairpersons, CEOs/MDs and COOs is also represented in the second part of this section.

REPRESENTATION OF WOMEN AMONG (COOs) OF NBFS COMPANIES 2021

CONCLUSION

The overall performance of the NBFS companies in terms of number and percentage of WoB representation witnessed a significant improvement in 2021 compared to the previous years.

The total number of women on boards of NBFS companies totaled 712 women in 2021. 258 women were newly appointed on boards of NBFS companies in 2021.

The percentage of WoB representation also progressed, increasing from 14.7% in 2020 to 18.6% in 2021 with almost 4% improvement in one year.

In 2020, the FRA issued a board decree that supports gender equality and calls for more balanced boards. To complete the legal framework, other decrees were issued in 2021. ^{*11}

NBFS companies with zero women on board witnessed a major improvement, decreasing in number and percentage from 277 in 2020 to 124 in 2021 and from 47.4% in 2020 to 19.7% in 2021. Moreover, companies with one woman and two women on board improved in terms of number and percentage WoB.

Almost 78.6% of NBFS companies operate in the capital markets, followed by 6.3% of companies working in Insurance services.

Companies with 30% WoB representation increased slightly from 109 in 2020 to 112 in 2021, marking a growth rate of 2.8%.

On the other hand, average WoB representation percentage in 2021 marked 19.1% in capital markets companies and 18.8 % among the Mortgage, leasing and factoring services companies (both higher than NBFS overall WoB representation percentage). The micro-finance companies had a WoB representation of 16.7%, while insurance companies had a WoB representation of 14.6%.

REGIONAL NETWORKS

30% CLUB MENA

The Women on Boards Observatory is a member of the 30% Club MENA. The 30% Club MENA is one of the global chapters of the UK-based 30% Club, which launched in London in 2010 with a goal of achieving 30% women on FTSE 100 boards by the end of 2015 (that goal was met in 2018). The 30% Club is a voluntary campaign driven by multi-sector business leaders working together to increase the participation of women on boards and in C-Level and Executive positions. With 14 chapters globally, the 30% Club has over 160 members representing multinational organizations, educational institutions, family-owned businesses and governments. The Women on Boards Observatory, in partnership with the 30% Club, is working to emulate the model across selected countries in the region in 2020.

THE BOARDROOM AFRICA

The Women on Boards Observatory signed a MoU with The Boardroom Africa. The Boardroom Africa (TBR Africa) promotes exceptional female talent to boards across the continent. They break down barriers to help organizations realize the benefits of increased diversity on boards by accelerating the placement of female board directors. TBR Africa connects peer- endorsed, board-ready women with CEOs and Board Executives across Africa for access to board and investment committee service.

NATIONAL NETWORKS

BUSINESS WOMEN OF EGYPT 21 (BWE21)

BWE21 is a national platform for economic development, attracting partners and donors to design and implement national and international business initiatives to serve the growth of Egyptian businesswomen. Members come from a wide range of business backgrounds. They seek to positively impact businesswomen and the Egyptian economy through their business development services, networking and international partnerships. They help women by developing their skills and strengthening their economic power for the sake of their career growth.

TOP 50 MOST INFLUENTIAL WOMEN FORUM

The Forum acts as a growing network of Egypt's most influential women in business, who are committed to a holistic approach of empowering women and strengthening their decision-making power and participation in the country's reform processes. Today, the Top 50 Women Forum has a current membership of over 200 most prominent and influential female ministers and executives in Finance, Banking, Investment, Trade, Tourism, Technology, Media, etc. By 2019, the Forum plans to include prominent women leaderships in the Middle East and North Africa.

FLAGSHIP ACTIVITIES

WOMEN ON BOARDS ANNUAL MONITORING REPORT

The report provides a snapshot of the representation of women on boards in different categories and provides an indicator for Women on Boards in Egypt. It, also, identifies the gap of women on boards in the sectors studied, with an aim to reach the target of the 2030 strategy.

EGYPTIAN BOARD READY WOMEN DATABASE

The database of the Women on Boards Observatory is designed to support the placement of women on company boards based on their expertise. The database currently hosts records of women who are already serving on public and private company boards as well as candidates ready to be placed, with their economic sectors, areas of expertise, educational background and other parameters. The database is supported by UN Women in Egypt. ^{*10}

BOARD PLACEMENT SERVICE

The Women on Boards Observatory helps place and promote female talents on boards and connects board-ready women with CEOs and Board Executives using the Board Ready Women Database. A board placement service is offered to companies across several sectors encouraging them to realize the benefits of increased diversity on boards.

CAPACITY BUILDING AND AWARENESS

Awareness and training activities are carried out for both male and women board members, as well as women in the pipeline for board membership. Programs are conducted with regional and international partners such as, the Financial Regulatory Authority, FRA, European Bank for Reconstruction and Development, EBRD, UN Women in Egypt and the International Finance Corporation, IFC, in Egypt.

**10 - This report is implemented within the partnership between UN Women Egypt and AUC Women on Boards Observatory which comes within the framework of the regional joint programme "Promoting Productive Employment and Decent Work for Women in Egypt, Jordan and Palestine" implemented by UN Women Egypt and the International Labour Organization ILO Cairo, in partnership with the Ministry of Manpower and the National Council for Women, through the support of the Sweden International Development Cooperation Agency (Sida) - Styrelsen för Internationellt Utvecklingssamarbete Embassy of Sweden in Cairo.*

ANNEX 2: THE NATIONAL STRATEGY FOR THE EMPOWERMENT OF EGYPTIAN WOMEN 2030

The National Strategy for the Empowerment of Egyptian Women 2030, which adopts a rights-based approach and is grounded in the SDGs and Egypt's Sustainable Development Strategy 2030, was endorsed by the President in March 2017. The strategy promotes the leadership roles of women and holding key positions in public institutions and companies, setting the target for women in senior management posts by 2030 at 30%.

This target is closely aligned with the global 30% coalition movement for women on boards. Research shows that three women on a board is the "critical mass" that normalizes the presence and voice of women on boards.

**One woman is a token,
two is presence,
three is voice ^{*11}**

ANNEX 3: ABOUT THE EGYPTIAN EXCHANGE (EGX)

The Egyptian Exchange (EGX) provides a well-regulated and efficient market by keeping abreast with international standards, which enables the listed companies to get the required finance and expand their businesses. It is always working to meet the needs and requirements of various market participants, investors and issuers, thus becoming a financing gateway for the issuing company through a wide base of local and international investors.

EGX is a pioneer exchange in sustainability and ESG efforts, believing that the ESG factors play an increasingly important role in creating shareholders' value. Leading by example, EGX encourages listed company to embed the ESG factors into their business activities to build their corporate image and manage ESG related-risks.

Fully aware of the importance of gender equality and women empowerment, the Egyptian Exchange signed the UN Women Empowerment Principles (UN-WEPS) in 2016, in line with EGX effective participation in sustainability initiatives and working groups in the capital market since 2012.

EGX INDICES

EGX30 Index includes the top 30 companies in terms of liquidity and activity. The index is weighted by the adjusted free floated market capitalization.

EGX30 avoids concentration on one industry/ sector and therefore has a good representation of various industries/sectors in the economy

EGX 70 Equally Weighted index (EGX70EWI) includes the top 70 companies in terms of liquidity and activity after excluding the constituents of EGX30. EGX70 avoids concentration on one industry, therefore, has a good representation of various industries/ sectors in the economy.

EGX100 Equally Weighted index (EGX100EWI) tracks the performance of the top 100 companies in terms of liquidity and activity, which includes the constituents of EGX30 and the constituents of EGX70 EW.

EGX Indices avoid concentration on one industry and therefore provide a good representation of the various industries/sectors in the economy.

The S&P/EGX ESG provides investors with exposure to 30 of the best performing stocks in the Egyptian market as measured by environmental, social and governance parameters. The index measures environmental, social and corporate governing practices based on quantitative rather than subjective factors with the implementation of a unique and innovative methodology standardized by S&P Indices.

EGXSMEs is the first SMEs market launched in the MENA region, with the aim of providing a platform for growing medium and small enterprises to access finance and helps them grow their businesses, increase their competitiveness and raise their contribution to the economic growth.

ANNEX 4 :

EGX INITIATIVE TO ENCOURAGE LISTED COMPANIES TO DISCLOSE THEIR TARGETS FOR WOMEN REPRESENTATION

Bloomberg, the Egyptian Exchange (EGX), the 30% Club MENA and the Women on Boards observatory at The American University in Cairo (AUC) School of Business, have invited listed companies in Egypt to submit their gender-related data via The Bloomberg Gender-Equality Index (GEI) Reporting Framework on July 8, 2021.

(EGX) encouraged Egyptian listed companies to publicly disclose their targets for female representation and routinely report on progress.

The Bloomberg GEI is an important tool for companies to evaluate internal practices, providing a benchmark of gender equality performance against peers. Companies complete a comprehensive survey that measures improvements in gender equality across five dimensions: female leadership and talent pipeline; equal pay and gender pay parity; inclusive culture; anti-sexual harassment policies; and pro-women brand. By providing a standard for these disclosures, the GEI helps bring transparency to gender-related practices and policies at publicly-listed companies and increases the breadth of social and governance data available to investors.

ANNEX 5: ABOUT THE BANKING SECTOR

The Central Bank of Egypt operates according to the provisions of law no 88 of the year 2003 promulgating the law of “The Central Bank, the banking sector and money” with the objective of ensuring the safety and soundness of the banking system and undertaking any tasks or taking any measures required for applying the monetary, credit and banking policies, as well as for guaranteeing the soundness of bank credit.

The central bank takes the means with which it ensures the realization of its objectives and the discharge of its functions. This includes supervising the units of the banking sector, setting the regulatory and supervisory standards to guarantee the sound financial positions of banks and their efficient performance; as well as issuing the necessary decisions for their implementation and evaluating the efforts exerted regarding guaranteeing the soundness of bank credit and ensuring the application of standards of credit quality and financial soundness with due regard to international banking norms.

ANNEX 6: CBE INITIATIVES TO ENHANCE WOB REPRESENTATION

The Central Bank of Egypt issued a decision in 2021, stating the necessity of having at least two women members on the banks’ boards, effective 2021.

ANNEX 7: ABOUT PUBLIC ENTERPRISE SECTOR

In light of the Presidential Decision No. 127 of 2016, under which the Ministry of Public Business Sector was established and the decision of the Prime Minister No. 873 of 2016 organizing the Ministry of Public Business Sector. As per these decisions, the Ministry is in charge of managing the state investments owned by the public business sector companies affiliated to it, supervising these companies, following up and evaluating the results of its work and presenting periodic reports to the Council of Ministers.

To achieve its goals, the Ministry will be responsible for drawing the general policy of the Ministry within the framework of the goals set for it and developing plans to achieve those goals, in coordination with the various state agencies, following up the implementation of these plans and evaluating their results.

ANNEX 8: THE MINISTRY'S STRATEGY TO REFORM AND DEVELOP ITS SUBSIDIARIES

The ministry developed a reform plan for restructuring public enterprise companies by sorting and classifying these companies into three main groups detailed below and analyzing their current conditions in preparation for the formulation of a plan for their development. It is worth noting that, the financial reform plan for companies was based on repaying debts based on the untapped assets that were counted and determining what can be used from them to settle corporate debts towards government agencies and what can be allocated to finance the required development in companies. These three main groups are:

1. Companies suffering from increasing losses and deteriorating productivity due to obsolescence of machines, mismanagement and failure to consider economic factors in pricing, production and sale. These companies contribute to a share of 90% of the total losses of the public enterprise sector. Intensified efforts of reform plans were implemented by the ministry to transform 26 of these companies, which are in four industrial sectors: spinning and weaving, metal industries, chemical industries and pharmaceuticals. These companies to profitability, through one of the five options identified by the ministry to deal with them: complete modernization of factories, complete modernization with the entry of a technical partner, or massive overhauls for companies that prove economic feasibility studies for investment in them, or partial or complete closure.

2. Companies that achieve profits and are distinguished by their reasonable profitability and readiness for listing on the stock exchange with the aim of revitalizing the stock market by providing the necessary liquidity to finance development and increasing the private sector's participation in ownership and boards of directors, thus benefiting from its expertise in developing these companies on a third hand.

3. Companies that achieve profits less than their capabilities and are concentrated in three main sectors:

- Insurance, for which the Ministry has prepared a complete plan for restructuring the activities of subsidiaries, divided into insurance, investment management and real estate asset management.
- Tourism and hotels, where the sector owns a large number of hotels and tourism assets that can be better exploited to achieve more profits.
- Construction sector, the reform plan included a study of merging some contracting companies that benefit from integration in their activities, in addition to developing a strategic plan to ensure that there are clear development plans for more than 50% of the land portfolio of housing companies and start implementing them in accordance with a timetable.

ANNEX 9: ABOUT THE FINANCIAL REGULATORY AUTHORITY (FRA)

The Financial Regulatory Authority of Egypt (FRA) was established in accordance with Law No. 10 of 2009. The FRA is responsible for supervising and regulating non-banking financial markets and instruments, including Capital Markets, Futures Exchanges, Insurance, Mortgage Finance, Financial Leasing, Factoring, Securitization, MSME Financing and Consumer Finance.

The FRA plays a pivotal role in ensuring the stability and integrity of non-banking financial institutions (NBFIs) and boosting their competitiveness to attract further domestic and foreign investments. The FRA is working on mitigating risks emanating from the lack of coordination and tackling problems resulting from the presence of different regulatory approaches.

ANNEX 10: THE FRA INITIATIVES TO ENHANCE WOB REPRESENTATION OF NBFIS (2020 – 2021)

In 2020 the FRA issued a raft of rules that support and promote more gender-balanced boards. These rules were complemented with the issuance of the following decrees in 2021:

- 1- Decree No.109 of 2021: The necessity of having a women representation of 25% or at least 2 women members on the boards of EGX-listed companies.
- 2- Decree No. 110 of 2021: The necessity of having a women representation of 25% or at least 2 women board members on the boards of NBFIs.
