## CRIMINALIZATION OF FGM IN THE EGYPTIAN PENAL CODE

FGM was prohibited in 1997 by a decision of the Minister of Health, but the practice was not fully prohibited as in some cases it was permitted with a medical practitioner's approval. In 2007, the Ministry of Health issued a Ministerial Decree banning all health professionals from performing FGM in governmental or non-governmental hospitals and clinics.

In 2008, the 1<sup>st</sup> Criminal protection provisions against FGM were issued as the Penal Code was amended to provide for penalties criminalizing FGM, Article 242 bis stipulated that anyone performing female circumcision shall be punished by a term of imprisonment of no less than three months and no more than two years or a fine of no less than EGP 1,000 and no more than EGP 5,000. Nevertheless, Legislators have judged that such penalty is not proportional to the committed offence, therefore, in 2016, they amended Article 242 bis by aggravating the penalties of the Penal Code, and introducing a new Article 242 bis A all under the Law 78/2016.

The amendments of 2016 redefined FGM as a felony rather than a misdemeanour and increased the penalty for performing FGM from five to seven years of imprisonment and up to 15 years' imprisonment if the act of FGM leads to the death of the victim or a permanent disability, Also the articles provided punishment between one to three years' imprisonment of any individual who requests and abets the performance of FGM.
